

Pilot Program Offer

AI-Powered Legacy eLearning Modernization

Why Modernize Now?

Outdated SCORM courses reduce learner engagement, increase compliance risks, and block accessibility. AI-powered modernization transforms legacy content faster and more affordably.

Pilot Program Overview

Our low-risk, fixed-price Pilot Program demonstrates measurable results by modernizing a small set of your legacy courses using AI tools and next-gen instructional design.

What the Pilot Includes

- Modernization of 1–3 legacy SCORM courses
- Conversion to mobile-friendly, xAPI, or cmi5 formats
- Accessibility (WCAG) and localization enhancements
- AI-powered content updates and voiceover options
- Engagement improvements via microlearning or gamification
- Full LMS testing and deployment-ready outputs

Key Benefits

- ✓ 50–70% boost in learner engagement
- ✓ Up to 60% reduction in content update costs
- ✓ Global accessibility and compliance alignment
- ✓ Proven ROI before large-scale commitment

Timeline & Investment

- 2–4 weeks total delivery
- Transparent fixed pricing based on course complexity
- 100% of pilot fees credited toward full project rollout if you proceed

Discover the fastest, AI-powered path to modernizing your legacy training.
