

# Workflow: Modernizing Localized Training Without Cultural Adaptation

---

Step-by-step workflow to modernize this content type using AI tools:

1. Audit current translations for linguistic or visual mismatches.
2. Use AI (DeepL, ChatGPT) for culturally adapted rewrite.
3. Review visuals, examples, and scenarios for local relevance.
4. Apply AI voiceover tools for native language delivery.
5. QA with local SMEs if possible.
6. Repackage and deploy across regions.
